

### CJRP CRUSH INLINE REMOTE CAJON PEDAL

Unlike typical cable-driven or direct linkage pedals which can feel sluggish or lack placement options, the Crush inline remote cable-driven cajon pedal (patented) brings unparalleled smoothness, zero-latency and ultimate playability for today's most demanding and professional players. It is undoubtedly one of the best cajon pedals on the market.

#### Features:

- Low Center of Gravity Frame Structure for Playing Stability
- Fast and Responsive Inline Remote Cable-Driven System
- Angle-Adjusted Foam-Rubber Beater for Different Sound Variations
- Padded Cradle Mount and Locking Mechanism for Cajon Placement
- The Most Natural Feeling and responsive cajon kick pedal

### CJWS12 CRUSH WOOD CAJON SNARE 12" EUROPEAN BIRCH SHELL & TOP

The Crush 12"x3" wood cajon snare is not only specifically designed for a cajon drum set, it is also a useful and compact laptop cajon drum for outings and performing in front of a small crowd. The shell, top and bottom are made from select European birch which can create robust and varied tonal sounds. The snare wire underneath the surface delivers a nice response. The high and low pitched surface areas offer various musical applications such as drumming or bongo patterns. It is a great addition to every percussionist's arsenal.

## CRUSH CAJON COMPLETE DRUM SET

# CJ-DRUMSET1

As more and more smaller, intimate and acoustic gigs become popular, Crush believes there must be a suitable rhythm instrument which can bridge the gap between a percussion and a drum kit. The Crush Cajon Complete Drum Set is truly the solution for drummers performing in a smaller venue or mobile drumming situation. Not only are the essential drumming elements included in this kit, it also retains a natural feel of playing a normal drum set without compromising the size, placement and sound quality. It is a perfect mate for your practicing, touring and gigging needs!

## CRUSH CAJONS

Having trouble choosing a suitable cajon? With a simplified philosophy in mind, Crush offers a snare wire sizzle effect cajon just right for your needs! The Crush cajon is constructed of 9mm selected European Birch body and available in two different responsive frontplates, maple burl frontplate and American oak frontplate for different looking tastes. Moreover, rounded corners provide a comfortable playing experience for hands and legs. Adjustable corners and anti-rust stainless steel tension screws let percussionists adjust the snap sound easily when needed. The Crush Snare Wire Cajon is simply a portable drum kit bringing essential acoustic ensembles yielding both a solid thump and a snappy attack for any musical genre.
